Team entries please include names of all drivers, thx
 Include boat ID (number on hull and manufacturer)

PVEE _____ FREQ. _____

PCAT _____ FREQ. _____

XVEE _____ FREQ. _____

XCAT _____ FREQ. _____

XXVEE _____ FREQ. _____

XXCAT _____ FREQ. _____

Event registration is \$35.00 first class, \$15.00 each additional class. Be advised that all classes will run together so multiple class entries will require a separate driver and throttle/pit man for each class. This works great if you are entering the event as a 'TEAM'.

You can use more than one boat/hull for a particular class. For example; if you have two mono/vee hulls with stock unmodified motors etc. and one is better in rough water and the other is a smooth water hull you can run either hull. Depending on water conditions or if one gets damaged during the event you can continue racing with the other hull. Obviously they need to be the same freq. or 2.4ghz radio system. As long as the 'boats' are the same class you only need to register for one class. (unless you are a team and will be racing multiple boats or classes at the same time).

Registration includes 2 BBQ tickets, (additional tickets available for \$10 each), 4 raffle tickets (additional raffle tickets \$1ea.) and one event plaque similar to the 'dash plaques' at car shows. Extra event plaques will be available price TBD.
